

LEWISVILLE SCULPTURE SERIES — HOP INTO HISTORY

Lewisville Sculpture Series — Hop Into History is a series of life-sized bronze jackrabbit sculptures made into various anthropomorphic characters to portray historically significant events in Lewisville. Hop Into History includes six sculptures in five locations throughout Old Town. The City engaged the University of North Texas College of Visual Arts and Design to create a multi-unit, small-scale sculpture series for this public art project. The sculpture concepts and clay modeling were completed by selected student artists, and the casting and finishing work on each sculpture was completed by David and Martin Iles of Bolivar Bronze.

Use the map to visit each of the rabbits.

Lay your paper over the raised picture on each of the rabbit's plaques (aligning it with open space above the title). Use a soft pencil or crayon to quickly and lightly rub over the picture to make a reproduction of that picture on to your paper.
