

Dear Velma -

Enclosed is last of the mail I will send until I see you next week.

Wallace has been a horse's ass about your personal effects I locked them up as you had suggested & he pulled TV & radio out & put his own padlock on the storage room door.

I know your daughter has tried to contact the man & so has Ralph but he has said that you promised to fix the TV-Set & didn't. that you had pulled all your kitchen utensils & pans out so he couldn't cook. That is the story so you can be prepared for him.

His wife Mrs. Gorman flew in from San Juan today to stay a month or so with him. & this way cool him down.

Tommy Yeagley & 3 others had a fire extinguisher fight yesterday one Friday night late after I left & used up all the liquid.
