The police came in to the hall at 6AM & asked Tommy to point out runs that were occupied by Mexicans, & they searched the apts. with no search warrant. What legal steps do we take to stop this intrusion & persons living on this P.V.T. property. We lost #10 & #14 & one in Treas. house - 5 in all - Did this happen to you very often?

Last week I did all the cleaning up as couldn't get Thomas off his bottom. I had to wash some sheets & towels to get by as the union refused to let us have credit when I was out of pocket.

Wally has had one toe cut off & may have to have the foot or leg removed. Not sure which yet as have to wait & see how the progress. He is in a good mood about it all.

We are using your TV. as the large one in the TV. Room wasn't fixed as you said it would be. For the boys in the TV room we take it & lock it up each night.

Have not made one cent on employment have placed close to one dozen but only 4 have stayed with the jobs. Disappointed ready to sell it back to you for your business when you come back to Lewesville. The Hotel I like fine as it is down my alley in kind of work I'm used to.

Drop me a line or above top paragraph & advise me what to do
